DR. HOPKINS TELLS OF SAVING HICKORY

Trees in a Pamphlet Issued by Him on That Particular Subject.

WASHINGTON, D. C., Feb. 1.—"The Dying Hickory Trees—Causes and Remedies" is the subject of a pamphlet written by Dr. A. D. Hopkins, of West Virginia, in charge of forest insect investigations for the Department of Agriculture, and just published by that department.

In this pamphlet Dr. Hopkins reviews the damage done to hickory trees throughout the eastern part of the United States including West Virginia, by the hickory bark beetle.

According to the pamphlet the hickory trees of West Virginia are suffering in common with other states and much valuable timber is being destroyed, to say nothing of the loss of the hickory nuts, which are so much enjoyed as an article of food.

Dr. Hopkins recommends that the destruction of the beetle be made between the first of October and the first of May as that is the time when the broods are in the tree and can be most readily destroyed.

The commercial use of the wood of all infected trees or the placing of the logs in water together with the burning of the branches and bark is recommended by him as a means of preventing further ravages of the beetle.

LONG TERM

In County Jail Negro Gets for Going on Warpath with a Revolver.

Albert Smithers, a negro, has a meal and lodging ticket for 363 days made out in his favor, as the result of going on the warpath with a revolver late Wednesday night. The 363 days will be spent in the county jail, on which the ticket was drawn by Justice W. P. Camp.

A posse of detectives with a constable on a search for another man met Smithers walking along the railroad track and firing a revolver between 11 and 12 o'clock a short distance west of the Ocean mine settlement. Smithers was drunk. In order to avoid danger of getting shot while attempting to arrest the negro, the constable felled him to the ground with a blow over the head with a billy. Smithers was then handcuffed and taken to Justice Camp's office. The negro was clapping the revolver in one of his pockets when he was knocked down.

In the justice's office Smithers demanded an immediate hearing, confessed to a charge of carrying a deadly weapon in violation of law and was sentenced to serve a year minus two days in jail.

SIMPLICITY OF HAIR DRESSING NOW FASHIONABLE

Women Favor Party Locks, Puffs, Pompadours, Coronet Brides Going Out.

The present fashion of wearing the hair softly parted, without puffs and braids, demands a naturally fine head of hair, and women with thin, faded locks are at their wits' end to know how to make their hair look well. The first step toward this end is to keep hair and scalp in a healthy condition by the systematic use of a stimulating tonic.

HAY'S HAIR HEALTH contains all the health-giving ingredients needed by the starved hair roots. It destroys dandruff germs and encourages rapid growth of strong, new hair. Those hopelessly dry, faded looking locks grow soft, lustrous and youthful and the whole appearance is improved. You can get it at any drug-gist's for 50c, or \$1.00 per bottle or from the Philo Hay Spec. Co., Newark, N. J.

Mrs. A. R. Tabor, of Crider, Mo., has been troubled with sick headache for about five years, when she began taking Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headache is caused by a disordered stomach for which these tablets are especially indicated. Try them; get well and stay well. Sold by all dealers.
